Section IV  Brown Fellowship Application (optional)

The Ray E. Brown Fellowship aims to identify and support exceptional students who are committed to the health care field and wish to pursue the Graduate Program in Health Administration and Policy while at the University of Chicago. In addition to attracting talented students to the program, the Brown Fellowship provides the opportunity for students to develop leadership skills and fosters interdisciplinary experiences through projects and activities associated with the fellowship.

One incoming student from each of the following schools (Booth School of Business, Harris School of Public Policy and School of Social, Service Administration) will be selected to receive a $5,000 fellowship to be distributed over two years.

Brown Fellows are expected to complete the requirements of GPHAP as well as participate in the following leadership activities:

- Act as a GPHAP student representative from their respective schools by communicating needs and interests of students to GPHAP faculty and staff, and by speaking with prospective students as needed.
- Attend GPHAP events and encourage others to do so to promote networking and cohesion among GPHAP students.
- Work with other Brown Fellows to plan and coordinate three GPHAP events that advance the understanding of health care issues on campus and promote the interdisciplinary aspects of the program.

Application

To apply, students must submit a completed GPHAP application. In addition to the GPHAP application, Brown Fellows must provide the following information:

- Copy of student’s undergraduate transcripts.
- One page letter of recommendation from a former supervisor or colleague in a health related position.
- Personal statement regarding student’s leadership qualities and experience.

Applicants for Brown Fellowships must be full-time students in their respective schools (Booth, Harris, SSA). Please note that because the Law School was recently added as a participating program, we do not currently allocate a Brown Fellowship to a Law School student; however, Law School students are eligible to serve as Student Representatives.

Applications will be reviewed by the GPHAP Faculty Committee and GPHAP Director, and evaluated according to the following criteria:

- Commitment and passion to the healthcare field.
- Good academic standing.
- Understanding of the value of interdisciplinary and collaborative approaches.
- Ability and willingness to take a student leadership role in the program.
